I GAVE HER PHONE NUMBERS AND NAMES OF MY NEIGHBORS AND AGAIN SHE INSISTS I AM THE ONLY ONE CONTESTING THIS.

THERE ARE 7 HOUSES ON MY STREET, WITH ONLY MYSELF AND ONE OTHER COUPLE THAT ARE NOT 70 YEARS OLD AND ABOVE.
AGAIN I WILL STATE YOU ARE DEALING WITH OLDER RESIDENTS THAT DO NOT UNDERSTAND THAT JUST BECAUSE THERE IS A CELL PHOHE TOWER THEY ASSUME THIER CELL PHONE WILL WORK, VALERIE ALMOND EVEN ADVISED MY NEIGHBORS THERE IS A CHANCE THIER CELL PHONES MIGHT WORK, BUT SHE CANT GUARANTEE THIS.
WORKING IN INFORMATION TECHNOLOGY FOR 18 YEARD I KNOW HOW THE GAME IS PLAYED AND I DONT APPRECIATE OLDER RESIDENTS BELIEVING THINGS I KNOW ARE NOT TRUE,
LAST MEETING IT WAS MENTIONED THIS IS CONSIDERED A UTILITY, LETS TALK ABOUT THAT FOR A MINUTE.
I CHOSE TO LIVE IN A HERENTON FREE ZONE AND HAVE NEVER COMPLAINED ABOUT OUR AREA.
WE HAVE MLG@W , OF COURSE IF THE WIND BLOWS HARD THE LIGHTS GO OUT, I DO GET CITY WATER. OTHER THAN THAT THERE ARE NO UTILITIES ON OUR STREET.

THERE ARE NO STREET LIGHTS , WHICH WE LOVE
I PAY FOR GARBAGE PICKUP
I PAY FOR FIRE PROTECTION
I HAVE A SEPTIC TANK

AND THERE ARE NO SIDE WALKS

I ASKED BACK IN 2004 IF I WOULD BE ABLE TO GET NATURAL GAS AND WAS ADVISED BY MLG@W I SURE COULD FOR 9,000 .
OR
I COULD WAIT TILL 2005 WHEN THE COUNTY WAS TO HAVE EVERYONE IN MY AREA ON NATURAL GAS.
AS WE ALL KNOW MLG@W RAN OUT OF MONEY IN THE GAS BUDGET.
AND LORD KNOWS WHEN / IF THEY WILL EVER GET THE MONEY, AND YET I STILL DO NOT COMPLAIN BECAUSE I LOVE THE AREA I LIVE IN.

SO 3 YEARS LATER I AM SURROUNDED BY HOUSES IN MY AREA WITH NATURAL GAS, IN FACT I CAN SEE HOUSES AROUD THE CORNER FROM ME THAT HAVE HAD NATURAL GAS FOR OVER 5 YEARS, BUT THE 7 HOUSES ON MY STREET ARE NOT ALLOWED, OR THE UTILITY COMPANY CANT AFFORD TO BRING IT TO MY STREET.
SO
I STILL GET SCREWEWD BY BABE HOWEARD EVERY MONTH AND IF YOU THINK GAS FOR YOUR CAR IS EXPENSIVE TRY FILLING UP A PROPANE TANK TO USE JUST FOR HEAT, IT IS SO EXPENSIVE I KEEP MY HOUSE AT 66 DURING THE WINTER AND PASS OUT BLANKETS TO GUESTS AS THEY ARRIVE.

I AM NOT COMPLAINING JUST STATING FACTS.

WE HAVE SURVIVED FOR YEARS WITHOUT MANY UTILITES IN OUR AREA AND HAVE BECOME QUITE USED TO BE SELF

SUFFICNT IN THE COUNTY.

IN SPEAKING WITH VALERIE ALMOND I WAS ADVISDED THEY CANT PUT A TREE LOOKING TOWER UP BECAUSE IT ONLY GOES TO 130 FEET AND THEY NEED THE TOWER TO BE 195 FEET....JUST 5 FEET SHORT OF WHAT THE FAA REQUIRES FOR LIGHTS ON THE TOWER, BUT CAN SHE GUARANTEE THIS WILL BE THE RULE FROM THE FAA IN 6 MONTHS...DOUBTFUL. I EVEN POINTED OUT I SIT BETWEEN 2 SMAL LOCAL AIRPORTS NOT INCLUDING THE POLICE AND FIRE ACADEMYS NEAR BY, AND SEE HELICOPTERS FLYING PRETTY LOW, BUT WAS REASSURED THESE REQUIREMNTS COME FROM THE FAA AND IF THEY FLY LOWER THAT IS PILOT ERROR.

I DO NOT WANT THIS TOWER IN MY AREA AND EMPLORE YOU TO RECONSIDER IN HAVING THEM RELOCATE IT SOME WHERE ELSE, TRY THE CITY, ANYTHING GOES THERE.

I LOVE THE AREA I LIVE IN , I ENJOY THE PEACE AND QUIET OF THE COUNTRY WITH ALL THE NATURAL WILD LIFE . WHERE ELSE CAN YOU LIVE AND SEE HERDS OF DEER, TURKEYS, HEAR OWLS, AND SEE HAWKS, AND I EVEN A WHITE RACOON WHICH THE PARK RANGER ADVISED ME HAPPENS 1 IN EVERY 280,000 BIRTHS AND HE HAS BEEN AROUND FOR 3 YEARS NOW.

I MAY LIVE OUT IN THE COUNTRY BUT ITS CLOSE ENOUGH TO COMMUTE TO MY JOB IN THE CITY WHICH IS 45MIN TO AN HOUR A DAY EACH WAY.

Page 4

I DO NOT WANT THE BLIGHT OF A CELL TOWER BLOCKING MY BEAUTIFUL SUNSETS IN THE EVENING.
AND BEG YOU TO RE THINK THE CELL PHONE TOWER IN MY AREA

THANK YOU FOR YOUR TIME.

RE: Results of Balloon Test
Cricket - Global Towers Greenfield Site
7040 Woodstock Cuba Rd
Millington, TN

Dear Mr. Garvin:
Baran has completed a Balloon Test for the referenced property. The test was conducted by Mark Bailey and Valerie Allmond of Baran on April 3, 2008 at the site.

Test Parameters

A 5-foot diameter, helium filled, red weather balloon was used for the test. The balloon location was verified by handheld GPS coordinates onsite. The balloon was raised to a total height of 200 feet. The test was conducted between 10 am and 2 pm on April 3. Winds were out of the north at 0-10 miles per hour and the temperature was in the fifties. The skies were partly cloudy.

Photo-Simulations

A number of photographs were taken from nearby property owners of the balloon during the test. These photographs have been used in a series of photo-simulations which are attached to this document. Where appropriate the height of the simulated tower was adjusted higher to account for deflection of the balloon from the wind.

A map is included which depicts the location where each photo was taken.

If you have any questions regarding this test or the photo-simulations please call me at (404) 886-7366 or email me at mbailey@barantelecom.com.

Sincerely,

Baran Telecom, Inc.

W. Mark Bailey
