Glen,

Attached to this e-mail is the denial letter for the use of a water well for residential use at 11275 East Holmes Road. Please write a letter of appeal and e-mail it to me as soon as possible then send me a hard copy by mail. Once the letter is received the appeal will be placed on the Agenda for the next Ground Water Quality Control Board (GWQCB) meeting scheduled for August 30, 2016.

If you should have any questions, please contact me.

To Whom It May Concern:

Our request to establish a water well for residential use at 11275 East Holmes Road was recently denied. Please accept this letter as a formal appeal of that denial.

The property at 11275 East Holmes Road does not have access to public water or sewage. The property size is 3.68 acres and is just under the 4 acre minimum requirement to have a well. It has adequate space for the well and sewer lines to be more than the required distance apart. There are homes to the left and right of the property, which would make this an excellent homesite. We would like for you (Ground Water Control Board) to grant a well variance so the property can be used as a future homesite.

Thank you for your time and assistance in this matter.
